PAPER BOAT CHALLENGE

WHAT YOU’LL NEED

Step 1, Boat construction

Fold paper in half
Fold paper in half again the other way
Fold the corners in
Fold up the bottom edges on both sides
Pull each side out and flatten into a square

Fold the front and back layers upward
Pull the sides apart and flatten into square
Pull the top flaps outward
Pull the sides up and flatten the bottom
Your boat is now ready!

Step 2, Test your boat

Fill a large bowl with water and put your boat to the test.

See how many items you can place onto your boat before it begins to sink. You can try different items on different boats and see if the boat reacts differently.
